OFFICE OF THE SANITARY COMMISSIONER IN MYSORE,

Bangalore, Dated the 18-6-1907

From

Lt Col. John Smyth, M., D., I.M.S.,
Sanitary Commissioner to the Government of
His Highness the Maharaja of Mysore,
BANGALORE

To K.S. Chandrasekhara Iyer Esq, B.A., B.L.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
BANGALORE

Sir,

With regard to the reclamation of the Sante Honda in Chitaldrug town, I have the honor to invite the attention of His Highness 's Government to the fact that what is first of all required is to pump out the filth now lying in the honda, and then ~~white~~ wash it up to present water level, and see if it really is supplied with a good spring, it will be quite time enough after this has been ascertained to think of spending money on decorations, ghats &c This pumping will not cost much. The presumptive evidence is entirely in favour of the existence of a good spring Decorative works are quite unnecessary, all that will be wanted in case the spring is found satisfactory is a fence to prevent all access direct to the water. Two or three or ½ dozen cheap pumps can be erected alongside it with pipes leading to the water, by which water can be raised without contaminating the supply.

I have the honor to be,

Sir,

Your most obedient servant,

For Sanitary Commissioner.

Department of Public Health in Mysore.
